Chamber Competition

Before the Internet people had to call the Chamber of Commerce to get the names and phone numbers of businesses that could help them. This is just one of the many reasons the membership directory is valued today by many.

But now that people are using the Internet and not the phone to research this information.

It is absolutely critical that the Chamber remain as the primary Neighborhood Directory and Information Provider.

Just look at all of the wannabe chambers out there... type in your chamber name in any search engine and look at all the sites that come up trying to steal your traffic.

Even the large search engine providers intend to become the local search giants! Don't wait because the time is **NOW** to launch your own Chamber Broadcasting System.

We guarantee that the majority of your membership will love the program or your one-time setup fee is refunded.

Chamber Member Proposal

Chamber Update.Com

Dear Richard,

EcTownUSA.Com, LLC. provides Chambers of Commerce with an innovative approach to grow and retain membership. Chambers all the time say "it is so much easier to sign up new members now that we have EcTownUSA". With over 45 million search engine requests and delivered member views you just can't find a better solution.

Members > Growth + Automation

Chambers Go Mobile

eWeek Magazine stated on January 15, 2007 "Forrester Research, According to a study released Jan. 4, found that 35 percent of U.S. households that have a mobile phone use it for text messaging, and 11 percent use it to access the Internet, setting up a ripe environment for mobile marketing."

Most Chambers are designed to help and promote members businesses through events, consulting, and promotion through the membership directory.

Chambers we are working with are becoming the local caretaker of the community's information. Many also handle the distribution of this information to visitors, tourists and locals that need answers about the community.

Phones are the right way to begin delivering this information. We can show you how... just call us and we'll be happy to show you many Chambers who are now information hubs through cell phones.

What the Post Office is Saying

Seventy-one percent (71%) of Internet users buy products online. The Web is no longer an optional sales channel - it's real and it's now. (USPS Small Business Impact March 2007)

The Chamber has always been there to promote the "Physical Space" of their membership, but today as evidenced all over... the Chamber must now begin to seriously promote the "Virtual Space" of their members.

I know some of this is wrapped in a commercial, but lets face it... we want to grow and so do you!

Sincerely,

Richard Scully
